PINANCIAL AND COMMERCIAL.

anquestionably stimulated by the virtual completion of the reorganization so far as it relates to the main line of the system. The securities of the successor company are being issued and the officers of that company took formal possession of the property this morning. further advance of 10 points in the price of Kansas Pacific consols is explained by the determination of the Union Pacific Reorganization Committee to purchase all of the unmbeidized portions of the Kansas Pacific lines whenever the foreclosure sales may take place, but not to enter into competition with the Government in bidding for the 394 miles subject to the Government lien. Should the Government obtain the piece of subsidized road the new Union Pacific Company will be able to connect the Denver extension of the Kansas Pacific Company with Kansas City by a comparatively small expenditure for the construction of links that will connect the Denver Division with one or more of the roads that practically parallel the Government aided portion of the present through line. It has been suggested that for this purpose the new company might recetablish the relations its predecessor maintained with the St. Joe and Grand Telend Railroad Company, It is now pretty well understood by those most largely interested in Union Pacific securities that the purchase by the Government of the subsidized portion of the Kansas Pacific lines will not interfere with the reorganization of the remainder of the Kansas Pacific system, nor prevent that system from securing a necessary entlet to the East.

Increased activity in Manhattan Railway, a advancing prices, is explained by the publica-tion of the various propositions of the company to extend and improve its facilities. The flurry in Baltimore and Ohio was accompanied by rumors that a plan of re-organization will shortly be forthcoming. It is true that various banking interests that have been successful in other important and difficult reorganizations are considering the Baltimore and Ohio problem more earnestly than ever before. The condition and com-plications of the Baltimore and Ohio system are such that without doubt practically all of the reorganization experts will have to lend a hand in rehabilitating that sadly mismanaged trunk line. The Granger and Northern Pacific stocks, New York Central, and Sugar Refining showed the effects of recent profit taking. None of them, how ever, sustained more than a fractional net loss. Of the usually less active shares, Des Moines and Fort Dodge came to the front at a net admade a new high record at a net advance of 2% wcent. On lighter transactions than were recorded for the stocks just named, Chicago and Eastern Illinois preferred closed 34 points higher than yesterday, Consolidated Ice 14. and Chicago Terminal preferred 1 7 cent. The closing was in the main steady.

Exports of general merchandise from the port of New York for the week ending to-day were valued at \$8,000,107, against \$10,797,269 in the preceding week and \$7,321,961 in the corresponding week of last year; since Jan. 1 \$36,406,754, against \$33,188,435 in the corresponding period last year.

The directors of the Northern Pacific Railway Company declared to-day a divisiend of 1 \$\frac{3}{2}\$ cent. on the preferred stock for the quarter ending March 1, payment to be made on March 3 to holders of record on Feb. 10. Before this action was taken, President Mellon called the attention of the board to the fact that at the meeting on Dec. 10 last he estimated the net earnings of the property for the first six months of the fiscal year at 86,440,000, and that the actual earnings for the six months ending Dec. 31 here \$80,40,000, or about \$300,000 more than his estimate. He stated further that he thought the net earnings for the current six months could safely be estimated at something more than \$1,500,000, making the total for the year \$9,440,000, Fixed charges for the year are about \$6,000,000, and dividends at the rate of 4 % cent, per annum on the preferred stock would require \$3,000,000. It annears, therefore, that should the commany ears only the current six months it will be able to show a surplus over fixed charges and preferred stock dividend on the first days of hisrah June, September and December, the only months when interest payments do not mature, and than clinical above. This policy was adopted by the board, as declared a quarterly dividend of the source, and in referred a fock dividends on the first days of March June, September and December, the only months when interests payments do not mature, and thus, clinical above. This policy was adopted by the board, it accents dividends increased of \$70,000. The second quarterly dividend was declared a quarterly dividend of 11s ween, paysable Feb.

of the rise was lest before the close, however, owing principally to the definest of the speculation. Liberal receipts at the inhertor towns also contributed to the reaction. The spot markets at the South were firm and active, and the exports from the ports to-day were large, exceeding the receipts by about 20,000 bales. The receipts at the poets, besides showing a sharp falling off from yesterday's movement, were also smaller than on the corresponding day in 1893. Estimates for the week, however, are being increased, the port movement being estimated at about 215,000 bales. The weather in the South to-day was fair, and continued rair weather is predicted for to night and to-morrow. The local dry goods market was more active to-day and firm.

COFFEE—Bid on the apot was steady; No. 7, 6%c. Sales 6,000 bags No. 7 at 6%c., 500 bags Maracaibo, and 100 bags Savanilla on private terms. The future trading was as follows:
